External Air Filter Hardware Option Available for STX LP Transmitters

On February 24th, 2010, Broadcast Electronics released an optional add-on external air filter kit for the STX LP 1 kW, STX LP 2 kW, STX LP 3 kW, and the STX LP 5 kW transmitters.

Installation is easy! Simply snap on the external air filter kit to the front panel of your existing unit! [Click here](#) for an example.

Use this table to determine the quantity of kits required:

TX Model	Kit(s) Required	Air Filter Kit P/N
STX LP 1kW	1	979-4100
STX LP 2kW	3	979-4100
STX LP 3kW	4	979-4100
STX LP 5kW	6	979-4100

Note: Each 979-4100 kit includes one air filter. To order spare air filters use part number 407-0178.

To place an order for the optional add-on external air filter kit, please contact the Broadcast Electronics Parts department by phone at 217.224.9600 or e-mail parts@bdcast.com.

BE's new STX LP becomes the first low power transmitter to effectively combine the quality, features and support you want at an exceptional value.

With built-in features not found in competing models, the STX LP becomes the most feature-rich low power transmitter on the market. Smaller rack size, quicker installation and set-up times, reduced maintenance and future system expandability options puts you at a competitive advantage while ensuring overall system reliability.

Key Features of the STX LP Transmitter Product Line

- Standard integrated exciter
- Scalable design allows addition of 1 kW blocks up to 5 kW
- IP Connectivity for anytime, anywhere access
- Built-in emergency backup controller for on-air redundancy
- Plus many more! Visit our [product page](#) for all details!
